- Feb, 2022 Artificial Intelligence
- Mar, 2021 Introduction to machine learning

SKILLS

- Work well under pressure
- Communication skills
- Problem-solving skills
- Teamwork skills
- Persentation skills
- Programming languages (Java, Python, HTML, CSS, SQL)

PROFILE

Hardworking college student seeking an internship. Ready to utilize my skills and passion to further the mission of a company. Technologically adept, offering experience with many different social media platforms, office technology programs, and advanced computer skills. Bringing forth a positive attitude and the willingness and motivation to learn new programs.

WORK EXPERIENCE

Worked on some projects in various fields, such as databases, computer graphics, and others, which you can find in my GitHub account. For example:

- **Lexical Analyzer for java:**

I designed a program that converts java code into lexemes and tokens.

- **School DataBase Management System:**

A full database system that includes all the massive data that any school needs.

- **Air Ticket Reservation System:**

A full program for the air ticket reservation system using the concept of data structure.
